FYI - before deployment, I also spoke briefly with Animas Stakeholder Group Rep. Bill Simon. He would like us to reach out to Peter Butler to build trust on data.

Also, regarding messaging, my understanding is that they have enough information about what happened and would like to talk about plans going forward.

No worries, you did great.

It could be the plan.

Two things

1. Still working on confirmation that Steve Way or other OSC will lead the tour, a must. Will have confirm soon.

2. It rained here last night. We need confirm it is safe and accessible up there. Did it rain, is there passage.

Additional - it would be good (IWBG) to discuss what will come up at the mtg. I also can go, but need to help David here too. Last not least BIA rep wants to go and is unhappy w/ is not keeping him in loop. Getting him there would help. See you very soon.

Sorry to being the inadvertent source of incorrect information on the BOCC meeting. I had been planning to coordinate but was told Melissa was covering it.

I had talked to Martin, yesterday, about driving him up there. Is that still the plan?

Nat, are you planning to accompany the BIA representative on the tour? To avoid duplication, I think it would be best if you continue to follow up with Craig and Steve Way, but please keep me in the loop.

Thanks!

Not sure who said I was coordinating this meeting. I only knew Martin was attending because we spoke about it tonight. I have no additional information as this was all planned prior to my arrival. Paula-do you have more info?

Melissa,

Based on the text from an earlier email to Libby from Darlene Marcus (below), I think you may want to expect that she will attend the BOCC meeting, as well.

Are we set for a mine tour tomorrow? Where should we meet and who will be providing the tour?

Nick and I will be in Silverton tomorrow so we will meet someone up there.

R. Darlene Marcus

Field Representative

I understand from Rebecca that you are coordinating the BOCC meeting with her. Nat is also coordinating with her on the tour Darlene has requested at the mine site, so you might want to check in with him.
